Professional Summary

Seasoned Technical Leader & Database Architect with 15+ years of experience designing, developing, and sustaining mission-critical enterprise systems across Oracle, MS SQL, MySQL, and PostgreSQL. Renowned for hands-on technical leadership, critical decision-making under pressure, and engineering systems that deliver 24×7 reliability. Combines deep database expertise with strong architectural insight to lead development teams that consistently deliver high-performance, low-downtime solutions.

Technical Leadership Profile

- End-to-end technical ownership of enterprise platforms supporting high-volume retail, finance, and government operations.
- Architect and mentor engineering teams on scalable DB design, code quality, and deployment standards.
- Bridge between architecture and execution - translating strategic business goals into concrete technical solutions.
- Proven record of maintaining ~99% customer satisfaction and 90%+ on-time delivery on mission-critical releases.
- Collaborative communicator who builds trusted partnerships with clients, consultants, and C-level leadership.

Core Technical Expertise

- Databases / Platforms: Oracle 10g | 11g | 12c | MySQL | MS SQL | PostgreSQL
- High Availability & Recovery: Clustering, Replication, Mirroring, Log-Shipping, Always-On Failover
- Performance Engineering: Query tuning, index strategy, execution-plan optimization, load balancing
- Architecture & Capacity Planning: Sizing hardware/software stacks for mission-critical applications
- Programming: SQL, PL/SQL, T-SQL, JavaScript
- DevOps Practices: Automated backup & restore plans, environment configuration, CI/CD integration for DB deployments
- Leadership Skills: Technical direction, code reviews, root-cause analysis, production stability governance

Professional Experience

Fortude (Pvt) Ltd, Colombo 7 | Jan 2026 – Present

Senior Technical Lead

- Lead end-to-end design and development of scalable, high-performance enterprise applications
- Provide technical leadership and mentorship to cross-functional development teams, ensuring high code quality and best practices.
- Architect and optimize backend systems, APIs, and database structures to improve performance, reliability, and scalability.
- Collaborate closely with business stakeholders to translate requirements into effective technical solutions.

EWIS Solutions (Pvt) Ltd, Rajagiriya | Feb 2021 – Dec 2025

Assistant General Manager – Solutions (Senior Technical Lead)

- Lead the technical development and database architecture teams responsible for the company's mission-critical enterprise applications.
- Provide hands-on leadership in solution architecture, schema design, and performance optimization.
- Drive technical decision-making on scalability, redundancy, and disaster-recovery strategies for high-availability systems.
- Collaborate directly with clients, consultants, and internal leadership to align technical design with business goals.
- Oversee system reliability engineering, ensuring production environments operate with minimal downtime.
- Mentor developers on database engineering practices, SQL optimization, and fault-tolerant design.

Senior Database Developer

- Designed and implemented high-performance database solutions for enterprise applications.
- Built scalable data models and implemented advanced backup / recovery and replication mechanisms.
- Collaborated closely with front-end and application teams to deliver seamless, end-to-end integration.
- Optimized mission-critical queries and stored procedures to achieve up to 80% performance improvement.

Database Developer

- Developed and deployed enterprise databases across retail, education, and utilities domains.

- Defined physical data architectures, implemented security and access controls, and ensured data integrity.
- Engineered and tuned production databases for optimal throughput and reliability.

Key Technical Projects

- POS & Retail Inventory Management System – Lanka Sathosa
- MSMIS – Medical Supplies Division (MoH Sri Lanka)
- Student & Member Management System – Institute of Chartered Accountants of SL
- Exam Controller (ECoLE) – Institute of Chartered Accountants of SL
- Billing System – Lanka Electricity Company (Private) Ltd.

Education

Thurstan College, Colombo – G.C.E. A/L (1990 – 2003)

Languages

Sinhala – Native | English – Fluent
